

## REFERENCES

Some of Hotman Oy's customers and applications:

- Metso Minerals Oy Lokomo Steel Foundry, Tampere / Design, installation and yearly maintenance of insulation structures of several heat treatment furnaces
- Outokumpu Stainless, Tornio / Design, installation and yearly maintenance of insulation and grate structures of several heat treatment furnaces
- Bodycote Lämpökäsittely Oy, Tampere, Vantaa, Vaasa and Pieksämäki / repairing and revamping brick works of Ipsen and Aichelin chamber furnaces
- ATA Gears, Tampere / repairing and revamping brick works of Ipsen and Aichelin chamber furnaces
- Ruukki, Hämeenlinna / Installation of insulation structure of hot dip galvanization plant
- Ruukki, Raahe / Welding of refractory steel anchor of Step beam furnace by Silicon D20 drawn arc stud welding machine
- Memar Oy, Pirkkala / Design, installation and maintenance of insulation structures of several heat treatment furnaces
- Keycast Oy, Raahe / Design, installation and maintenance of insulation structures of several heat treatment furnaces
- Glaston Finland Oy, Tampere / Design and installation of insulation structures of several glass bending furnaces
- Komas Oy, Jyväskylä / Design, installation and maintenance of insulation and grate structures of several heat treatment furnaces
- TTT-Technology Oy Ab, Akaa / Design, installation and maintenance of insulation structures of several heat treatment furnaces
- Borealis Polymers Oy, Kullo / Installation of insulation structures of cracking furnace
